OUTSTANDING CREDIT

National and Regional retailers represent 100% of the square feet and 100% of the rent.

SQUARE FEET BY CREDIT

GROSS RENT BY CREDIT

ALL RETAIL IS NOT EQUAL

The tenants that occupy a retail center are key to the long-term success of the investment. Select constantly analyzes retailers considering multiple factors including; sales, growth in same store sales (or lack thereof), new store openings, resistance to e-commerce (or lack thereof), credit and future prospects. Select also has the benefit of constant interaction with retailers through daily management and leasing activities. This interaction provides an inside perspective into a retailer's strategy and operations.

Several themes emerge from this ongoing analysis. First, grocery stores and other **necessity** oriented retailers are performing well. Second, there is a strong group of **value** retailers like TJ Maxx, Ross, Kohl's and Marshalls that are attractive. Third, **entertainment** oriented uses like restaurants, theaters and fitness clubs are generating strong sales in addition to generating traffic. Fourth, **service** oriented uses such as insurance, medical and real estate drive traffic and provide tenant mix diversity.

Necessity, value, entertainment and service oriented retailers represent 72.2% of the square feet and 90.94% of the gross income at Westerville Plaza.
